Leather Care Products

3-in-1 Leather Wipes

3-in-1 Leather Wipes clean, condition, and protect all types of leather, except for suede and nubuck. For your convenience, each wipe is individually wrapped for long lasting moisture. These wipes are perfect for general dusting and regular maintenance. Sold in packs of ten.

Leather Cleaning Kit

Leather Cleaning Kit contains Leather Cleaner, Leather Protector, Ink Remover, one cleaning sponge, one testing cloth, one application cloth, and instructions. The products in this kit are intended for aniline and protected leathers.

Mild Cleanser

Mild Cleanser is a water-based cleaning fluid for all kinds of leather except suede and nubuck. Use to efficiently remove grease, food, and coffee stains. Please follow instructions carefully.

Nubuck Care Kit

Nubuck Care Kit includes Nubuck Cleaner, Nubuck Protector, one cleaning sponge, one reviving sponge, and instructions.

Ink Remover

Ink Remover removes ink and lipstick from aniline and protected leathers. It is designed to remove recent ink stains and best results are achieved when the stain is removed within 24 hours or as soon as possible.

Proper care and cleaning are critical to the longevity of leather. Garrett Leather offers a variety of care products to keep your semi aniline and aniline leather looking and feeling as good as new.

Care Instructions

Garrett Leather offers a Leather Cleaning Kit, Mild Cleanser, Ink Remover, 3-in-1 Leather Wipes, and a Nubuck Care Kit. We recommend the following procedures for cleaning:

Finished Leathers / Semi-Aniline

Avion, Berkshire, Cadence, Caressa, Chatham, Denizen, DiModa Cobra, DiModa Gatora, Flight, Glazed, Jubilee, Jubilee Gem, Luxianna, Mystique, Mystique Croco, Newport Club, Pearlessence, Saddle Leather, Shagarrett, and Torino

Finished leather receives a protective treatment during the tanning process, which allows for easy cleanup of everyday soiling and spills. Many leathers will initially repel liquids, but if left to stand over an extended period of time, the liquids will be absorbed. It is a good idea to blot up spills immediately. Even if the spill is absorbed, it will dissipate in time and eventually diffuse.

For Common Spots and Spills

Blot excess liquid immediately with a clean absorbent cloth or sponge. If necessary, use Mild Cleanser and gently wipe the spill. Allow to air dry naturally. Clean the entire area where the spill occurred, for example, the entire seat cushion or entire arm. Do not dry wet areas with heat guns, hair dryers, etc.

For Stubborn Spots and Stains

Apply Leather Cleaner from Garrett Leather's cleaning kit to a clean wet sponge and rub gently. If necessary use a mild solution of Ivory soap and clear, lukewarm water. Apply using a clean damp sponge to wash. Do not soak leather. After washing, use clean, clear water to wipe down surfaces again to remove any soap residue. Wipe with a clean, dry cloth. Always try the cleaning method in a hidden area first to test the result.

For Butter, Oil or Grease

Wipe excess butter, oil or grease off of the leather with a clean, dry cloth and leave it alone as the spot should dissipate into the leather in a short period of time. Do not apply water to try to wash a butter, oil or grease spot.

For Ink and Lipstick Stains

Apply Ink Remover to the stain immediately. Allow 2 minutes for the stain to dissolve. Use a clean, dry cloth to wipe away both the Ink Remover and stain. Repeat as necessary.

Do Not Use

Any saddle soaps, oils, abrasives, furniture polish, varnish or ammonia water. These may harm the finish and permanently damage the leather.

Stain Prevention

Use Leather Protector from Garrett Leather's cleaning kit or 3-in-1 Leather Wipes on a regular basis to nourish leather, retain softness,

Pure Aniline

Distressed, Journey, Resilience, Sierrasoft, and Vintage

Natural, pure aniline leather has very little surface protection. If your pure aniline leather becomes soiled, immediately blot excess liquid with a soft, clean cloth. Use Mild Cleanser for spots and spills. Clean the entire area (i.e. the entire seat cushion, arm rest, etc.) starting from the outside of the spill to the center. Use 3-in-1 Leather Wipes to maintain and condition the leather as needed. Please note that due to the natural characteristics of these leathers, scratches and marks may appear on the surface over time. This appearance is the "character" of natural leather.

Do Not Use

Any saddle soaps, oils, abrasives, soaps, furniture polish, varnish or ammonia water. These will strip the waxes from the surface of the leather and affect the color and the look of your leather.

Other Products

Allura, Kenya, and Native

Nubuck is leather that has been tanned, dyed, and sanded on the surface of the hide to expose the fiber structure. Since the fiber structure is exposed, nubuck is treated with water and stain repellent during the tanning process. Likewise, Native, while not a true nubuck, is handbuffed to expose the fiber structure. Use products from the Nubuck Care Kit on these products. Mild Cleanser and 3-in-1 Leather Wipes are not suitable to use on nubuck or on handbuffed leather.

Glam Sheepskin

Gently hand or machine wash in warm water. Wash with mild liquid hand soap or enzyme free washing liquids. Do not dry in direct sunlight or artificial heat. Always allow sheepskin to dry slowly.

Sheepskin

Lightly blot liquid spills with a paper towel or damp sponge. For dried-on soils, lightly comb or brush out the fleece. For a deep cleaning, dry cleaning is recommended.

Capelli Natural, Capelli Specialty, and Capelli Stenciled

Wipe with a slightly damp, clean, soft cloth using cold water only. Capelli hides may also be gently vacuumed, however, do not use a rotating brush vacuum.

Garrett Wovens, Garrett Tubular Wovens, and Welt Cord

Use 3-in-1 Leather Wipes to clean and condition as needed.
